# Press Release

## ***For Immediate Release***

### ***Netherlands-based FibreMax selects Delta Rigging & Tools as their Preferred Provider for North America***

**PEARLAND, TX (April 28, 2011)** — Delta Rigging & Tools, Inc. ([www.deltarigging.com](http://www.deltarigging.com)), one of the largest providers of lifting and rigging products and related services in the United States, today announced that FibreMax has selected Delta as its preferred provider of FibreMax products in the U.S. The Netherlands-based company produces lightweight precision cables using a one-of-a-kind production process. This process provides precision tuning of the synthetic cable manufacturing operations for optimal design to meet specific needs.

“We selected Delta Rigging as our preferred provider because they are recognized as the leader in rigging and lifting solutions in the United States and because they offer a complete portfolio of products and services, including testing, certification inspection and field services,” said Rinze-Jan van der Schuit, FibreMax CEO. “We’re excited about this new partnership and its long-term potential for both companies to better serve our customers together. Our goal is to become the worldwide preferred supplier for lightweight precision cables in our chosen market segments. This relationship will help us reach our goal.”

All FibreMax cables are produced with endless winding technology, a totally automated process of continuous winding of parallel strands of fibers around two end fittings until the right cable strength or required cable stretch has been reached.

*more*

“We are very pleased that FibreMax has entrusted its U.S. market to us,” said Kevin Rodgers, Delta Rigging & Tools CEO. “FibreMax fits very well into our product portfolio, and offers some unique capabilities that our customers need. FibreMax can count on Delta Rigging to provide world-class customer sales, service and support for this innovative product line throughout North America.”

Sales of the FibreMax technology will be available immediately through all Delta Rigging & Tools locations. For more information, visit: [www.deltarigging.com](http://www.deltarigging.com)

### **About Delta Rigging & Tools**

Delta Rigging & Tools, Inc. (DR&T) is the largest US provider of lifting products and services. DR&T offers a complete portfolio of lifting solutions, including hoists, winches, wire rope, wire and synthetic slings, accessory parts, and hardware as well as testing, inspection, and field services. DR&T serves both domestic and international customers through 13 sales and service facilities and 2 primary distribution centers located around the country. The company provides complete lifting and rigging solutions and support for a diverse range of markets, including Oil & Gas production and distribution, Energy and Power-Generation, Mining, Transportation, Heavy Manufacturing and Construction.

Founded in December, 2004, when several of the leading industrial rigging and lifting companies across the U.S. merged together, Delta Rigging & Tools continues to grow rapidly by providing its customers in these and other industry segments with the highest possible levels of *Safety, Service, Quality* and *Value*.

### **About FibreMax**

FibreMax is an initiative of [SmartRigging](http://www.smartrigging.com), which was founded in 2004. Over 4 million Euros were invested in research and development of a unique, state-of-the-art Endless Winding Robot and a purpose built factory where FibreMax products are manufactured.
